

# WeRateDogs

## A Data-Wrangling project by Ramy Nauh

### Act Report

#### Data Analysis and Visualization ;

WeRateDogs is a popular Twitter account that posts funny comments and rates of dogs from photos submitted by their followers. Active since November 2015, and with over 7.6 million followers by January 2019, it has grown beyond being a twitter account to launch even a store with dog-related products.
